Student Engagement Policy 2010 – to be reviewed in 2013

Purpose:

The Toora Primary School Student Engagement policy supports the rights of all members of the school community to engage in and promote a safe, inclusive and supportive learning environment. It supports the school’s capacity to respond to individual circumstances when regular attendance is not consistent or positive behaviours are not demonstrated. Decisions affecting students at the school are made primarily in the best interests of the students.

Student engagement encompasses:

**Behavioural engagement** – students’ participation in education, including the academic, social and extracurricular activities of the school.

**Emotional engagement** – students’ emotional reactions in the classroom and in the school; a sense of belonging or connectedness to the school.

**Cognitive engagement** – students’ investment in learning and their intrinsic motivation and self-regulation.

Background:

Our student engagement policy hinges on a comprehensive understanding of the diversity of the whole-school community:

Toora Primary School community consists of:

- Students from changed home environments, for example, single parent families, long term and short term foster care, changing family structures
- Students on the Disability and Impairment program
- Students requiring support via the School Support Services network
- Families ranging from one child to eight
- Families with both parents working, one parent working, neither parent working
- Families shifting in and out of the geographic area
- A mix of rural and town families
- Parent and community volunteer helpers
- Families with personal support networks and those with little or no support
- Stable nuclear families
- Mainly Anglo/Caucasian families and staff
- Low socio-economic area
- Families with differing values
- Families with differing religious/spiritual beliefs
• Students experiencing puberty
• Students with differing strengths and weaknesses across the curriculum.

Values:
Toora Primary School values achievement, happiness, tolerance, respect (caring) and courage. Students’ needs, backgrounds, perspectives and interests are reflected in the learning program. We believe that all students are able to learn and achieve; home, school and community working together maximise learning; we learn best when we are happy and we are all lifelong learners. The school implements programs and strategies to promote student engagement, high attendance and positive behaviours. At Toora Primary School all students are valued and cared for, and are supported to feel part of the school, engage effectively in their learning and experience success.

Targets:
Attendance: Full student attendance and participation, except where there is a legitimate reason for nonattendance and participation, for example illness, appointments.

Engagement: whole school community with focus on bringing parent / community attitudes on board with staff / student (shown by improved data in annual surveys.)

Positive Behaviours: Improved relationships, school community abiding by rules and boundaries, (shown by harmonious relationships and decrease in the need for time out and the implementation of negative consequence; increase in celebration of positive behaviours).

Prevention and early intervention strategies:
• Scaffolding the student’s learning program
• Articulating high expectations to all members of the school community
• Rigorous procedures to monitor and record student absences (absence notes/emails/phone messages need to be recorded and stapled to monthly roll)
• Following up of student absences needs to be prompt and consistent (Pastoral Care Worker initially, if no improvement Principal and finally report to DEECD / DHS if necessary)
• Promote the It’s Not Okay to Be Away initiative; award system in place
• Clear written and verbal statements made regularly to parents/carers and students about school and community attendance expectations
• Promotion of awareness that absence and late arrivals result in quantifiable lost learning time and opportunities
• Whole-school modelling of punctuality
• Regular discussions on student attendance in staff meetings and in the staff performance and development review process
• Seek and communicate causal factors of absence and the need for targeted intervention
• Provision of out-of-school programs for example, Healthy Breakfasts and Active After-School Communities Program
• Collaborative and cooperative programs with other schools, community groups and agencies
• Provision of consistent school and classroom environments
• Clear understanding of expectations by both students and staff
• Pastoral Care Worker for staff, families and students
• Lunchtime clubs
• Comprehensive curriculum matching student needs and interests (encompassing extra-curricular activities) and appreciating the diverse range of student abilities
• Parent and community member participation in school activities to reduce student/adult ratio for safety, as well as improving the value of experiences through purposeful conversation and the development of relationships
• Explicit teaching of school values and required behaviours with an understanding of consequences
• Close supervision of student behaviours by yard duty teachers (including bus duty) during all breaks – before and after school, recess and lunch
• Maintaining small classes with a focus on transition between grades as well as between school and kindergarten and school and secondary college (for example, rotations, team teaching, learning walks, whole school activities)
• Relationship building between staff and students
• Relationship building between staff and families
• Communication - through our actions convey the message that we do care and willingly support student personal and interpersonal development
• Sharing with parents the importance of homework and its aims and objectives (for example, home reading, Behind the News reports)
• Weekly staff meetings during which student wellbeing is discussed
• Explicit teaching of social skills through class sessions of You Can Do It! And Friendly Schools and Families
• Support from School Support Services, local community groups and agencies for staff, students and families including Social Skills programs, one-on-one counselling and therapy
• Professional Development for example ‘Behaviour After Trauma’ “Restorative Practises”
• School representation at student case meetings
• Student leadership opportunities, for example, Year 6 leadership positions
• Empowering students by creating multiple opportunities for them to take responsibility and be involved in decision making
• Consistently acknowledging all students
• Provision of physical environments that are conducive to positive behaviours and effective engagement in learning (indoor and outdoor learning environments)

• Student participation in the development of classroom and whole school expectations

• Special projects, for example those funded through School Focused Youth Services.

• Students are taught conflict resolution skills and the 5 Finger Plan.

Students at risk:

• Students who are regularly absent from school are at risk of missing out on fundamental aspects of their educational and social development

• Organise attendance focused meetings with parents/carers and students

• Individual student attendance goal setting and data driven improvement plans

• Formal procedures for supporting the learning of a student absent for an extended period (classroom teacher to supply relevant learning materials)

• Gathering of information regarding each student on school entry inclusive of parent concerns, student strengths and weaknesses, student interests, developmental and medical history, kinder / school recommendations

• Staff observations and assessments

• Formal assessments undertaken by School Support Staff or other specialists

• Seek additional funding to support student needs, for example, Program for Students with Disabilities, Kilmany,

• Provision of personal learning programs - Individual Learning Plan developed based on knowledge of the student and recommendations from specialists
• Implementation of Individual Learning Plans and sharing with staff and family

• Identifying the resources that will best meet the needs of the student, for example, counselling from Pastoral Care Worker, specific learning aids (for example Clicker computer program, reading resources, computer equipment) Education Support aide, reduced class size, teacher time plus tutoring by qualified teacher, private music lessons

• Establish support groups for students as required.

Data Collection:

• School Accountability and Improvement Framework – Strategic Plan, Annual Implementation Plan, Student Attitude to School Survey, Parent and Staff Opinion Surveys

• Absence data

• Naplan, On-demand testing, class assessments, student June and December reports

• Student feedback

• Pastoral Care records

• Parent feedback, for example, written comments on student reports, focus groups, School Council

• Attendance of parents at Parent / Teacher / Student interviews

• Student outcomes in the Physical, Social and Personal VELS Domains
Rights and Responsibilities:

Every member of the school community has a right to fully participate in an educational environment that is safe, supportive and inclusive. Everyone deserves to be treated with respect and dignity. It is unlawful to discriminate against gender, race, religion, political conviction, age or impairment. The Charter of Human Rights and Responsibilities Act 2006 demands equality for all and emphasises the value of difference. Schools must act compatibly with human rights and consider human rights when making decisions and delivering services. Implementation of the school’s student engagement policy needs to be consistent, fair and reasonable.

</table>
Actions and consequences need to be incremental (a staged response) and need to be applied fairly and consistently. Equal emphasis will be placed on issuing positive consequences for meeting high expectations as there will be on negative consequences. Actions and consequences should have an educational role and aim to foster positive relationships and retain the dignity of the student. Actions and consequences that isolate a student from learning should be avoided where possible. Students are encouraged to accept responsibility for their actions, and to participate fully and positively in their educational experience. A student should only be excluded from school in situations where all other measures have been implemented without success or where an immediate suspension is the only appropriate course of action in response to the student’s behaviour. In these instances DEECD procedures for suspension / expulsion will be followed.

**Hierarchy of Behaviours:**

Annually staff review hierarchy of behaviours and determine categories – minor, moderate and severe. For consistent application of consequences.

**Consequences:**

- **Minor:** Teacher intervention; acknowledge and quiet word. If behaviour repeated then move to the next category.
- **Moderate:** Dealt with at school for one offence. Students complete Behaviour Journal.
- **Severe:** Students complete Behaviour Journal. Parents informed. Individual Behaviour Plan / Support Group as required.

Consequences need to be determined, the process kept simple, documented and shared with students and parents. Students have input into deciding fair and reasonable consequences to repair relationships, based on Restorative Practises and as directed by the Department of Education and Early Childhood Development.

**Yard Duty teachers:**

- Rove and monitor hot spots, for example toilets
- Engage in happy conversations
- Supervise students playing in grade groups
- Consistently apply consequences
- Use ‘bum-bag’ for bandages, recording behaviours, passing on messages from one staff member to another
- Offer alternatives, for example, chalk
- Time out requires students to sit at the shaded tables, face to the wall, consider bad choice / good choice, what could you do next time? Calm but firm teachers, spread students out if more than one.
